SEABLUE® Power Dermal Vitamin Cream with B-12

*New & Improved Formula! *Now with added Lycopene & Vitamin C! Recharge your batteries and boost your energy levels with SEABLUE®'s complete vitamin B solution. The SEABLUE® way offers an alternative to painful B-12 injections or swallowing bulky B vitamin pills.* SEABLUE® Power is a dermal vitamin supplement that offers a more effective mode of supplementation without the side effects of oral supplements.

Benefits: SEABLUE® Power Dermal Vitamin Cream with B-12 is designed to:

- Promote metabolism
- Increase energy
- Increase concentration
- Improve sleep patterns
- Not cause gastric distress
- Relieve constipation

Main Ingredients: SEABLUE® Power provides an original dermal energizing cream designed to go through the skin to speed B vitamins directly into the bloodstream and tissues, where they work best. Power provides over 100% of the RDA for B-12, B-6, and Folic Acid, which combine to assist in boosting energy levels. It also contains the dermal delivery of magnesium and zinc. The dermal delivery system eliminates the need for oral supplements and minimizes the need for expensive, sometimes painful, B-12 injections.

Suggested Use: Each dermal application contains above ingredients. Apply twice daily to inner forearms
